

NFG 309

UPRIGHT FREEZER

NFG 309 is a frost-free display freezer that defrosts automatically at regular intervals, which prevents food packaging from being covered in frost or sticking to each other. Stored foods are kept visible through the glass door, which is free from condensation due to the built in heating element. Strong, adjustable wire shelves will allow all types of foods to be stored correctly. NFG 309 can be combined with display cooler FKG 371 in a side-by-side setup.

ISO 9001, 14001 & OHSAS 18001 CERTIFIED
